Canadian Funds

1. Nature of Operations

BCGold Corp. (“the Company” or “BCGold”) was incorporated under the Business Corporations Act of British Columbia on February 10, 2006 as 0748496 B.C. Ltd. On March 1, 2006, the Company changed its name to BCGold Corp. The Company is an exploration stage enterprise focusing on the acquisition, exploration and development of economic gold and other precious and base metal properties. On September 15, 2006, upon acceptance of the Company’s qualifying transaction, the shares commenced trading under the symbol BCG on the TSX-Venture Exchange.

2. Significant Accounting Policies

These interim financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles and follow the same accounting policies and methods of their application as the most recent annual financial statements except that the Company has adopted the following CICA guidelines effective March 1, 2008. These interim financial statements do not include all disclosures required by Canadian Generally Accepted Accounting Principles for annual financial statements and accordingly, these interim financial statements should be read in conjunction with the audited financial statements and notes thereto of the Company as at February 29, 2008.

New Accounting Policies

a) Section 1535 – Capital Disclosures

Effective March 1, 2008, the Company adopted CICA Section 1535, “Capital Disclosures”. This section requires the Company to include additional information in the notes to the financial statements about its capital and the manner in which it is managed. The additional disclosure includes quantitative and qualitative information regarding an entity’s objectives, policies and procedures for managing capital.

The impact of adopting this section is disclosed in Note 7.

b) Section 3862 and 3863 – Financial Instruments Disclosures and Presentation

Effective March 1, 2008, the Company adopted CICA Section 3862 and 3863, “Financial Instruments Disclosures and Presentation”. This section requires disclosures of both qualitative and quantitative information that enables users of the financial statements to evaluate the nature and extent of risks from financial instruments to which the Company is exposed.

The impact of adopting this section is disclosed in Note 8.

3. Future Accounting and Reporting Changes

a) International Financial Reporting Standards (“IFRS”)

In 2006, the Canadian Accounting Standards Board (“AcSB”) published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008 the AcSB announced that 2011 is the changeover date for all publicly-listed companies to use IFRS, replacing Canada’s own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transition date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended February 28, 2011. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

b) Goodwill and Intangible Assets

In February 2008, the AcSB issued Handbook Section 3064, “Goodwill and Intangible Assets”, which will replace Section 3062, “Goodwill and Intangible Assets” and amended Section 1000, “Financial Statement Concepts” clarifying the criteria for the recognition of assets, intangible assets and internally developed intangible assets. Items that no longer meet the definition of an asset are no longer recognized with assets. The new standard also provides guidance for the treatment of preproduction and start-up costs and requires that these costs be expensed as incurred. The new standard is effective for fiscal years beginning on or after October 1, 2008 and early adoption is permitted. The adoption of this new section is not expected to have a material impact on the Company’s financial position.

c) CICA Emerging Issues Committee 172 Income Statement Presentation of a Tax Loss Carryforward Recognized Following an Unrealized Gain on an Available for Sale Financial Asset

Effective September 2008, this EIC requires a company which has prior year tax loss carryforwards that have not been recognized as future income tax assets, when there are future income tax liabilities related to unrealized gains from financial assets, to recognize such portion of losses in income in the period. The adoption of this EIC is not expected to have a material impact on the Company’s financial position.

b) Engineer, BC – Continued

All payments and issuances may be accelerated at BCGold's option. Each share purchase warrant will be exercisable to purchase one common share of BCGold for two years following the date of issuance at a price per common share to be determined by taking the weighted average closing price of the common shares of BCGold for the twenty consecutive trading days immediately prior to the date of issuance plus 25%.

c) Toodoggone, BC

On September 15, 2006, the Company signed a letter of intent with Stealth Minerals Limited (“Stealth”) to earn up to a 75% interest in three properties from Stealth’s Toodoggone property portfolio in north-central British Columbia. Under the terms of the Option Agreement, Stealth divided its multiple hectare Tooggone land position into eleven properties. The Agreement enabled the Company to review all exploration data for the eleven properties and select any three properties by March 31, 2007, in exchange for the Company purchasing an aggregate of 2,500,000 common shares of Stealth at a price of \$0.20 per share on or before March 31, 2007. The Company acquired 1,750,000 shares in fiscal 2008 (750,000 - 2007). The fair value of these shares at the date of issuance amounting to \$192,500 (2007 - \$86,250) was recorded as marketable securities. The premium paid over the fair value was capitalized to resource property costs in the amount of \$157,500 (2007 - \$63,750).

On April 2, 2007 the Company selected three properties for its initial 51% interest being, Sickie-Sofia, Louis and FogMess and issued 450,000 BCGold common shares (fair value \$265,500) and 225,000 BCGold common share purchase warrants (fair value \$76,663) exercisable at \$0.75 expiring April 2, 2009. A portion of the three properties chosen is subject to an underlying 3% NSR held by a third party. The Company can reduce the NSR through various cash payments ranging from \$10,000 to \$15,000 per property or lump sum payments ranging from \$350,000 to \$1,000,000.

The Company can increase its interest to 60% by spending, at its option, an additional \$1 million (total of \$2 million) on each property within a four year period from the election date of March 28, 2008 and can further increase its interest to 75% by producing a bankable feasibility study for each property. Notice of the Company’s plans to proceed with the third option must be provided within 6 months of the exercise of the second option and completed within five years of the notice date. The Company will be the operator of the selected properties.

d) Voigtberg, BC

On July 10, 2006, the Company signed a letter of intent with Kaminak Gold Corp. (“Kaminak”) to earn a 70% interest in Kaminak’s Voigtberg property located in the Iskut River area, Liard Mining Division, British Columbia.

In order for the Company to earn up to a 60% interest in the Voigtberg property, the Company must, at its option, issue 100,000 units to Kaminak as of the date of closing of the Qualifying Transaction (Issued – September 15, 2006 – fair value \$35,000). In addition, the Company must, at its option, issue an additional 100,000 units to Kaminak on each of the first (issued – fair value \$70,000 for the shares and \$16,944 for the warrants), second (issued subsequent to period end) and third anniversaries of the closing date for a total of 300,000 additional units, each additional unit, including the initial 100,000 units, to consist of one common share of BCGold and one-half of one common share purchase warrant, each whole warrant being exercisable for one year following the date of issuance to purchase one common share of BCGold at an exercise price determined by taking the weighted average closing price of the common shares of the Company for the twenty consecutive trading days immediately prior to the date of issuance plus 25%, and the Company must, at its option, incur minimum exploration expenditures over a four year period as follows:

i)	\$	350,000	to September 15, 2007 <i>(completed)</i>
ii)		350,000	to September 15, 2008 <i>(completed)</i>
iii)		650,000	to September 15, 2009
iv)		650,000	to September 15, 2010
	\$	<u>2,000,000</u>	

Upon incurring \$1 million in exploration expenditures, the Company will have earned a 50% interest in the Voigtberg property and, upon the issuance of all of the initial and additional units, incurring all of the expenditures and operating the exploration program as set out above, the Company will have earned a 60% interest in the Voigtberg property. The Company may then earn an additional 10% interest in the property by completing a bankable feasibility study, for a total of a 70% interest in the property.

A 2% NSR in favour of Hunter Exploration Group exists on the property.
